GYM MANAGEMENT SYSTEM

Introduction

This project aims at making Gym operation easy, less paper work ,transparent and automated.
In the proposed system .The user, Instructor and the administrator of the gym will be able to
Monitor every users activity and thus increasing the instructor user interaction. The instructor
Will also be able to suggest and record the suggestions to user. The administrator will be able to track
The workout of each and every user of the gym.

gymFit

Database Relation Schema

1. Instructor

Inst_id	Password	Name	Ph. No.	Address	Day Slot	Salary	Capacity	Appoi_on

2.User

User_Id	Password	Name	Ph. No.	Inst_Id	Fee_Status	Address	DOB

3. Daily_Report

| Id	User_Id	Date_Of_Report	Time_Spent	Calories_Burnt

4.Monthly_Report

Rep_Id	Month	User_Id	Tot_Cal_Bur	Food_Sugg	Inst_Id	Rank

5.Machines

Mac_Id	Calories_Burnt

6.Work_Out

Id	Date_Of_Work	User_Id	Mac_Id	Time
